Browse the world with Saily

our new eSIM service

Saily is a fast-growing eSIM service app, created by the team behind NordVPN.

It is built to save money and protect you from unpleasant situations. Have you ever been lost abroad or badly needed an internet connection with no Wi-Fi spot in sight? With Saily, you can stay connected with affordable eSIM plans in over 190 countries. Whether you work remotely, like to travel, or want to use less plastic, get an eSIM with Saily — it only takes a couple of clicks.

What do you get with Saily?

As many as 190 destinations

We offer multiple plans in over 190 countries around the world. Find the one for you.

One eSIM, many trips

No need to reinstall your eSIM every time — just pick a plan, and you're good to go.

Connect when you arrive

Your eSIM data plan will automatically activate when you reach your destination.

24/7 chat support

Our team is always ready to answer your questions and help sort any issues.

Decrease roaming charges

Avoid sneaky mobile roaming fees with a local eSIM plan.

Find affordable data plans in one place

Find a data plan for your next trip at some of the best prices online.

Avoid long queues to buy a local SIM card

Buy an eSIM online, and don't spend hours in a queue with strangers when you land.

Stay secure

With an eSIM, you don't have to worry about connecting to unknown Wi-Fi spots.

Never run out

Don't run out of data at the worst possible moment — we'll notify you when you've used over 80% of your data. You can top up your plan with just a few clicks.

Unlimited data plans

Travel the world with Saily. Get an unlimited data plan and stay connected without ever worrying about running out of data.

Global and regional plans

Planning on visiting several countries during your next trip? Save on eSIMs even more! Get a global or a regional plan and travel with the same eSIM plan.

Protect your privacy

Activate Saily's security features and browse more confidently — change your virtual location, block malicious ads, and stay safer with web protection.
